

TeamViewer and Philips

A perfect match

Easy and Secure Remote Control and Screen Sharing for Your Philips Professional Display

The pre-installed TeamViewer Host app for Android™ gives you instant access and full control of your display, no matter your location. Get in contact with us until 31.03.19 to obtain your 10% discount on the TeamViewer Corporate subscription and access all benefits:

- ✓ Review the displayed content without disturbing the audience.
- ✓ Have complete remote control over device options and Android settings.
- ✓ Ability to transfer files, push and pull WiFi settings, check device health, and see app and process overviews.
- ✓ Connect from any PC, laptop, or mobile device to your displays.
- ✓ Make changes confidentially by de-activating the remote monitor during a live connection
- ✓ Highly secure real-time support from a market-leading solution.
