# TeamViewer

Empowering secure remote desktop access and support
The #1 solution for remote connectivity.

Remote support

IT pros choose TeamViewer™ to provide instant remote support for their clients anywhere, at anytime. Quickly and securely.

Remote Access

Supported by a blazing-fast global network, TeamViewer™ free remote access software tools enable you connect to your devices for maintenance, monitoring and more, from anywhere, anytime.

Support for mobile devices

Connect to a mobile device in seconds to provide support or share files. TeamViewer is the only remote support software on the market that is compatible with both iOS and Windows phones, as well as more than 60 Android manufacturers.

Home Office

Work from home securely and efficiently by connecting to a remote office computer to access files, networks, applications, and more. Even print from the remote computer to your local printer.

Benefits

Maximum compatibility

Flexible PC to PC, mobile to PC, PC to mobile and even mobile to mobile connections that support Windows, Mac OS, Linux, Chrome OS, iOS, Android, Windows 10 Mobile, and BlackBerry.

Smooth connectivity

Start and use TeamViewer instantly. TeamViewer works behind firewalls and automatically detects any proxy configuration.

Productivity-boosting

Support, assist, interact, and collaborate with people. Exchange information. Access and use technology. Work like you're in the same room without the travel and expense.

Maximum security

Ensure the security of data, devices, and networks with end-to-end encryption and additional security features.
