Dear Mr. Secretary-General,

I am writing to express TeamViewer's desire to join the UN Global Compact.

As a leading global connectivity platform, TeamViewer relentlessly focuses on secure and reliable remote access and support, monitoring, and collaboration solutions, continuously removing technological and geographical barriers globally. Our vision is to empower people to help people through innovative, easy-to-use technology that connects *Anyone. Anything. Anywhere. Anytime.* We are proud that TeamViewer products serve as essential tools for companies in fulfilling their goal of reducing the amount of GHG emissions by reducing travel needs.

Having deep aspirations to contribute to the fulfillment of the UN Sustainable Development Goals for the sake of securing a better future for current and following generations, it is my pleasure to confirm that TeamViewer supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment, and anti-corruption. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations. TeamViewer will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. TeamViewer strongly supports public accountability and transparency, and therefore commits to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions, any relevant policies, procedures and activities that our company has already taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

TeamViewer is delighted to join the international family of responsible enterprises supporting the Global Compact and is looking forward to a long-term partnership with the United Nations.

Sincerely yours,

Oliver Steil
