## About TeamViewer

TeamViewer is a leading global technology company that provides a connectivity platform to remotely access, control, manage, monitor, and repair devices of any kind – from laptops and mobile phones to industrial machines and robots. TeamViewer continuously innovates in fields such as Augmented Reality, enabling companies from all industries to digitally transform their workforce and business-critical processes. Through strategic acquisitions of Ubimax, Upskill, and Viscopic, TeamViewer has built a fully comprehensive, end-to-end AR solution on the market. TeamViewer Frontline optimizes processes along the entire industrial value chain, closing the loop to an entirely digital industrial workspace. Founded in 2005, and headquartered in Göppingen, Germany, TeamViewer is a publicly held company with approximately 1,400 global employees. TeamViewer AG (TMV) is listed at Frankfurt Stock Exchange and belongs to the MDAX.
